MUSA ABDULMUQADDAS

Frontend Engineer

+2348166836197 • musaabdulmuqaddas356@gmail.com • Abuja

Conscientious engineer with strong expertise in HTML, CSS, JavaScript, and responsive design. Strong emphasis on creating efficient, user-friendly interfaces while maintaining strict attention to detail and minimizing errors. Solid work ethic and methodical approach to problem-solving, ensuring high-quality results and orderly project completion. Equipped to contribute effectively as Front End Engineer with focus on delivering seamless user experiences.

Experience

Frontend Engineer
EDSTREAM, Kano
November 2024 - Present

- Developed the frontend interface for a comprehensive online school management system using React.js
- Implemented role-based access control (RBAC) to manage views and actions for admins, teachers, students, and parents
- Built dashboards and pages for student grading, attendance tracking, staff messaging, and academic reports
- Designed and integrated a notification system for real-time updates (e.g., results, fees, messages)
- Developed and deployed payment interface used by 1,000+ students monthly, integrating with Flutterwave API for 99.9% transaction success.
- Used Tailwind CSS to create responsive, consistent UI components
- Integrated secure frontend routing based on user roles
- Collaborated with backend engineers to consume APIs for real-time data and role enforcement
- Ensured cross-browser compatibility and mobile responsiveness across the platform

Frontend & Mobile Developer (Contract)
DOOS CORP, Fort Worth, TX
November 2024 - Present

- Co-developed Doos Logistics, a cross-border shipping platform for transporting goods between US, Nigeria and other countries. Built and maintained the React Native mobile app, an SEO-optimized Next.js reference tracking page, and a scalable admin dashboard.
- Integrated secure payment workflows into both mobile and admin platforms, enabling users to complete shipments seamlessly while tracking status and fees.
- Implemented analytics dashboards in the admin panel to monitor shipment trends, payment activity, and user behavior using charting libraries and backend APIs.
- Utilized Redux Toolkit for state management, React Hook Form for dynamic forms, Tailwind CSS for responsive design, and Framer Motion for smooth animations.
- Wrote and maintained unit and integration tests using Jest to ensure interface stability and reduce regressions.

Frontend & Mobile Application Developer

XPRESSCORE, Lagos
July 2024 - November 2024

- Developed and maintained modern web and mobile applications using React.js, React Native, Next.js, Nativewind and Tailwind CSS.
- Built reusable UI components and implemented scalable frontend architecture.
- Integrated APIs and managed state using Redux Toolkit and React Query.
- Focused on responsive design, performance optimization, and accessibility best practices.
- Collaborated with designers using Figma and worked in Agile development cycles.

Frontend Engineer
SHAWSEC, Kano
November 2023 - July 2024

- Building modern, responsive web applications using React.js and Next.js, with a focus on performance and user experience.
- Designing and implementing scalable UI components using Tailwind CSS, TypeScript, and component-driven architecture.
- Collaborating with backend and design teams to deliver seamless, full-featured products.
- Leveraging Next.js app routing, API routes, and server-side rendering (SSR) for optimal SEO and performance.
- Managing state efficiently with React Query, Zustand, and other frontend state libraries.
- Integrating third-party APIs and tools to support dynamic features and data-driven components.
- Practicing clean code principles, reusable design patterns, and Git-based version control workflows.
- Optimizing performance through lazy loading, code-splitting, and accessibility best practices.

Mobile Application Developer (Contract)
SPOUSE TECH LIMITED, Abuja
September 2023 - March 2024

- Developed and maintained cross-platform mobile apps using React Native.
- Implemented smooth navigation and screen transitions with React Navigation.
- Integrated APIs and managed local and global state using Redux Toolkit.
- Built reusable UI components with Tailwind CSS for React Native (e.g., NativeWind or Custom Styles).
- Added biometric login, gesture animations, and modals for an enhanced user experience.
- Optimized performance for both Android and iOS platforms.
- Published app updates via EAS Update and handled over-the-air deployments.

Frontend Engineer
RUMBU, Kaduna
July 2020 - February 2023

- Built and optimized responsive web pages using React.js, Next.js, and Tailwind CSS.
- Developed component-driven UIs with a focus on performance and reusability.
- Integrated RESTful APIs and handled data state with Redux Toolkit and React Query.
- Implemented frontend authentication, protected routes, and role-based access.
- Collaborated with product designers and backend engineers in Agile sprints.
- Deployed applications with Vercel, and monitored issues using tools like Sentry and PostHog.

Frontend Engineer
HNG TECH, Lagos
May 2018 - August 2018

- Collaborated with cross-functional teams to build responsive web interfaces.
- Implemented scalable UI components and integrated RESTful APIs for real-time data rendering.
- Participated in agile sprints, code reviews, and version control using Git and GitHub.
- Gained hands-on experience with UI/UX best practices, performance optimization, and state management.
- Successfully completed multiple technical tasks under time constraints in a fast-paced, team-driven environment.

Education

Bachelor of Science - BS in Computer Science
Ahmadu Bello University
January 2024

Diploma in Computer Science
Ahmadu Bello University
January 2019
